Subject: [External] ACP pipeline and fracking approval

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Deny the ACP permit. It is not the future and will not serve the interests of local communities or the citizens of the state.

It promotes pollution, climate change, and threatens water and land resources. The inequity of the pipeline is all too emblematic of our state right now.
